Information about the exam

Format
Oral exam, about 25 minutes, in English, via Zoom
(both of us writing on a shared whiteboard)

Date
Precise schedule below

Content
Script (excluding parts marked with *) and list of
questions (see below)

Procedure
I'll upload a list of questions (based on exercises
from the script) by July 12. In the first (and largest)
part of the exam I'll ask you to explain the solution
of some of these questions. I might ask you to
clarify some part of your answer or to recall a
definition or result that you use.
In the second part of the exam I'll also ask you some
new (but simpler) questions (for instance how to
apply a result from the lecture in a small example).

You will need
  - microphone and webcam
  - student card for identification
  - hardware for writing (eg. tablet + pen) is
    recommended, but not strictly necessary
  - a way to look at the question sheet I published,
    ideally while still being able to draw on the
    whiteboard

Preparations
I offered an online meeting where you can ask
questions, try out your Zoom setup etc.
If you have any questions, worries or suggestions,
please write me an email.

At the top of your screen, click on Options → Annotate to start drawing on the whiteboard.
If you prefer a different setup (you writing on paper with a document camera, for example), that's ok, maybe tell me so in your confirmation email.

Example (C₁, P₁, P₂)
↳ What is arithm./geom. genus of this curve?
↳ Is (C₁, P₁) stable?
↳ What is the dual graph?

eg. you can print it out, use a second monitor,... otherwise you have to switch between whiteboard and question sheet.

Time	Wed, 29th	Fri, 31st
9:00-9:30	Daniel Mulcahy	Ferdinand Wagner
9:30-10:00	Robin Louis	Simon Schirren
10:15-10:45	Zekun Ji	Samuele Pollaci
10:45-11:15	Thibauld van den Hove	Javier Sendra
11:30-12:00		Sjoerd de Vries
13:00-13:30	Nuno Hultberg	Max Schimpf
13:30-14:00	Heiko Kötzsche	Kuangda Konrad Zou
14:15-14:45	Adam Dauser	Felix Jäger
14:45-15:15	Xianyu Hu	Fernando Peña
15:15-15:45	Matthias Hippold	Georgian Sarghi

Please confirm by email that the time slot works for you!
